

## TECHNICAL DATA SHEET

|                                           |                               |
|-------------------------------------------|-------------------------------|
| <b>CMC TYPE</b>                           | <b>15676</b>                  |
| <b>Supporting Base</b>                    | none (adhesive transfer tape) |
| <b>Adhesive Properties</b>                |                               |
| Type of adhesive                          | acrylic                       |
| Colour of adhesive                        | colourless                    |
| Thickness of adhesive in mm               | 0,130 ± 10%                   |
| Adhesive strength in N/25 mm              | 18                            |
| <b>Thermal Properties</b>                 |                               |
| Temperature range in °C                   | - 40 up to + 85               |
| Short-term (1h) maximum temperature in °C | 120                           |
| <b>Liner</b>                              |                               |
| Protective paper                          | siliconized on both sides     |
| Liner thickness in mm                     | 0,090 ± 10%                   |
| <b>Other Properties</b>                   |                               |
| Liner                                     |                               |

Storage conditions: cool and dry (15 - 25°C, &lt; 65% rel. humidity)

11/09

Quality guarantee: 12 months
